The transactions in Railway Bonds continue large, the total sales being \$1,874,000, of which evening are somewhat irregular, but there are more advances than declines. The changes in ery many cases, however, being for fractional amounts. West Shore firsts are up % The rereport that an arrangement is under considera-tion for the completion of a new trunk line consisting of West Shore, the Grand Trunk and the Wabash railways. The stock market to-day, until the last hour, was practically a repetition of that yesterday. The opining prices showed no material changes from the closing prices last evening and the quotations for the next four hours were limited to small fractions of 1 per cent, without any material increase in the amount of business done. In the last hour, however, there was increased activity, accompanied by a slight yielding in quotations of the general list and a decided break in Lackawanea, and the market finally closed weak generally at the lowest prices reached.
Lackawanna shows a loss of 2½ per cent., but the other declines are only from ½ to ¾ per cent., except 8t. Paul, which is down ½. While the other above description is true of the general market, there were two or three notable exceptions, the most prominent being an advance of 1/8 in New Jersey Central. The total sales to-day were 137,182 shares, an increase over resterday of about 50 000 shares. The activity and decline in Lackawannas were not traceable to any new developments to-day, but were manifestly the outgrowth of manip-ulation. The total sales: of no other stock were equal to 16,000 shares. The Stock Exchange has adopted a new plan for the collection and distribu-tion of quotations. Eight of its own reporters, four at each end of the room, will collect the quo-tations and give them to an operator, who will send them simultaneously to the ticker companies. The operators will be stationed in a booth. The Stock Exchange in this way seeks to control its own quotations, and to keep them from the

## COMMERCIAL.

Through the medium of traveling salesmen sud a few mail orders the dry goods market is fairly active, and business (whilst the sales are small) aggregated a larger output than that of a few weeks ago. Prices are unchanged. The grocery trade is moderatively active. Sugars are very firm. with an advance of the to the on all grades. The drug trade for the past week has been better than for the past four weeks, and the increasing hot weather will undoubtedly "stimulate" sickness. The staples, however, remain the same in price. with the exception of carbolic acid, which is again advanced and is suoted at 30c. In butter and cheese there is a continued weakness. The business in green vegetables is reported heavy. There is no improvement in the demand for old 10 atoes. Eggs are sgald weak. Poultry remain a previous quotations.

GRALN. We quote the following from the Board of Trade

"Saturday, May 30, being 'Decoration Day,' the Board of Trade resolved so have no session on that day, Well may the 'doors of marts of trade be closed and the bustle of weary business cease for a time, while the active man of business stops in his daily round of fated labor to garland the graves of those who in the awful year: of war sealed their loyalty with man's most precious gift -their lives.

Wheat-In local circles spot deliveries are a shade firmer, with a noticeable improvement in the demand. Sellers are low and offerings light. Receipts meager. Futures show considerable inquiry at quotations. The seaboard markets are quite varied, and while New York is quo'ed steady, Baltimore exhibits the marked decline of 2c, and Chicago is 36 %c higher.

Corn - Local quotations rule firmer and a better den and prevails. Receipts fair. Futures quiet. New York 16e higher; Baltimore 36 ale better, and Chicago %e firmer.

Oats-Dull, and only a slight local demand is noticed fer spot stock. Futures show some cautious inquiries.

Special to J. A. McKee, Grain and Provision Broker, No 21 Board of Trade. CHICAGO, Ill., May 28 .- Wheat opened excited, the shorts eager buyers, advancing the market to 89c for July. The seaboard markets failed to re spond to the advance here, and a weakness in stocks tended to check the advance. Later selling for Eastern account caused the advance to disappear, but the market throughout the day has shown a healthler feeling. The longs seem pretty weil shaken out, and the short interest has interest has increased largely. The bears predict an increased movement of wheat from first hands. and a consequent depression in values. The market closed stronger—July 80%c bid—the shorts again buying. Corn is steady, and the receipts increasing. The bears are confident that the receipts will prove too much for the present longs. Th estimated receipts for to-morrow are wheat 150 cars: corn, 600 cars; oats, 350 cars: hogs, 20 000 head. Provisions are weak, and the tendency lower: values are depressed by the large receipts of hogs.

## MARKETS BY TELEGRAPH.

## Produce Markets.

CHICAGO, May 28 .- There was an active trading in wheat throughout the entire session, with prices fluctuating rather wildly. A selling movement early in the session was quickly stop, ed when it was found that strong buying had set in, and within the first half hour prices advanced be over the opening with the shorts purchasing freely. After the first rush there was a reaction of %c and then, when heavier receipts of wheat were indicated for to morrow, the market became heavy and declined to about the lowest figures of yesterday. In the afternoon the feeling was somewhat stronger, with some buying on the part of the "shorts" and the market closed a frac-tion higher than yesterday. Foreign advices Wesker markets and there appeared to be an utter lack of shipping inquiry. The feeling in corn was unsettled and irregular, notwithstanding that the posted receipts for to-day were large. The market ruled quite strong and prices advanced 3/4 above the opening figures. Shortly before noon it was rumored that the estimated receipts for tomorrow would show a large increase over to-day's arrivals, and prices became very weak, closing at %@1/c under yesterday. The afternoon warket was somewhat firmer and a shade higher. The speculative market for oats was strong, with good outside cuying and "shorts" covering, and there was an early advance of 126 c. All of which was afterward lost. The prospect of large receipts for to-morrow assisted the latter decline. Mess pork opened stronger, but fell back on the regular board. On the afternoon board a stronger feeling again prevailed, and the market closed somewhat higher than yesterday. Lard also closed higher than yesterday in the final transactions of the day. Flour-Weak, but not quotably lower. Wheat—Trading active, but feeling very unsettled. Upon the report of a fair export inquiry at the seaboard, prices were advanced 34@%c, then decrined ic from outside figures, and closed 4c under yesterday; sales ranged: May, 85%@85%c, closed 85%c; June, 86%@87%c, closed at 86%c; July, 88% @89%c, closed at 88%c: August, 90%@91%; closed at 90%c; No. 2 spring, 85%@85%c; No. 3 spring, 75%@76c: No. 2 red, 93%@94c; No. 3 red, 831/684c. The Managing Editor Was Willing.

"I should like to write for your paper." said a brisk young man who asked to see the editor. "Bless you, my boy!" said the penpusher, emerging wearily from a wrestlingmatch, catch as catch can, with the name of a Russian General, "you need not write for it; just hand your money to the cashier, first door to the right, and he'll send it to you all right," and he plunged into a sea of exchanges, while the young man, after falling into the coal closet, and walking into a wardrobe, managed to find the door leading to the street and escaped with what money he had about him. -Boston Commercial Bul-

"Con umotion Care"

Would be a truthful name to give to Dr. Pierce's "Golden Medical Discovery," the most efficacious medicine yet discovered for arresting the early development of pulmonary disease. But "consumption cure" would not sufficiently indicate the scope of its influence and usefulness. In all the many diseases which spring from a derangement of the liver and blood the "Discovery" is a sale and sure specific. Of all druggists.
